18 November 2021

Office of the Governor  
Environmental Quality Board  
State of Minnesota

Dear Governor Walz and Executive Director Pratt,

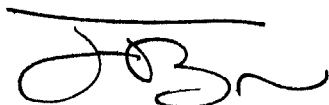

It is my honor to apply to serve as a Public Member of the Minnesota Environmental Quality Board from the 8th Congressional District. My personal and professional commitments fully align with the Board's mission to enhance Minnesota's environmental quality for current and future generations, and I would bring a range of relevant experiences to my participation.

Since 2011 I have worked as a faculty member in the Department of American Indian Studies at the University of Minnesota Duluth (UMD), where my teaching, outreach, and scholarship emphasize Indigenous governance, federal and state policy regarding American Indian nations, and Native writing. Prior to joining the UMD faculty, I was a student at the University of Minnesota's Twin Cities campus from 2002-2008. In addition to my primary faculty appointment at UMD, I am also an affiliate faculty member in the Humphrey School of Public Affairs and a faculty associate of the University's Institute on the Environment.

In 2016 I began serving as lead facilitator for the State of Minnesota's Tribal-State Relations Training program, born of Governor Dayton's Executive Order 13-10, significantly enhanced by Governor Walz's Executive Order 19-24, and currently mandated by Minnesota Statute 10.65. Through my role as program facilitator and instructor, I have had the opportunity to gain familiarity with numerous State agencies, build relationships with tribal nation leadership, and contribute to equipping State staffers to build partnerships with tribal government counterparts that benefit all Minnesotans. My experiences with the Tribal-State Relations program and my work as a practically-oriented scholar of public administration would allow me to ensure that the Environmental Quality Board sustains its capacities regarding public engagement, environmental review, permitting processes, and governmental relations.

I would welcome any opportunity to discuss potential participation in the Environmental Quality Board, and it would be my honor to serve as a member.

With gratitude,

Joseph Bauerkemper
