FROM: Tom Fletcher

RE: Application for Power Limited Technician / Technology System Contractor position on the Board of Electricity

Please accept this as my application for the Power Limited Technician position. As my attached resume shows my company AEX Communications, Inc. has been in business since 1994. AEX with license number TS000004 is one of the first licensed Technology Systems Contractors. My PLT license number is PL002300.

I am actively involved in the management of AEX Communications and the delivery of service to our customers. AEX's services include telecommunications services, cabling, and the installation of network equipment and security cameras. AEX's web site address is www.aexcom.com.

As my resume also indicates I have extensive experience and a strong track record serving in a public setting. I can provide multiple references to the fact that I show up prepared for meetings and work in a collaborative manner with other members of the Committees, Boards, and Councils that I serve on. I am an active member of every organization that I serve with and work hard to bring something to the table and have a positive impact on its discussions and strategic direction.

One item that isn't included in my resume is that I am also a Building Official for the City of Greenwood. I was appointed to this position to address issues with problem properties in our small City. The Excelsior Fire District Fire Marshall Kellie Murphy-Ringate (kmurphyringate@excelsiorfire.org or 952-960-1692) can attest to my effectiveness in this position. It has provided me with a unique perspective on what inspectors deal with from their side of the fence.

I would welcome the chance to give back to and help advance the industry in which I have worked for 30 years by serving on the Board of Electricity.

Please feel free to contact me with any questions.
