"Sec. 2. Minnesota Statutes 2018, section 137.61, is amended to read:

137.61 PURPOSE.

Sections 137.61 to 137.65 provide for a biomedical science research funding program to further the investment in biomedical science research facilities in Minnesota to benefit the state's economy, advance the biomedical technology industry, benefit human health, and facilitate research

collaboration between the University of Minnesota and other private and public institutions in this state. Sections 137.61 to 137.65 also provide funding for design, land acquisition, site preparation, and preconstruction services for the new clinical research facility on the University of Minnesota's Twin Cities campus.

Sec. 3. Minnesota Statutes 2018, section 137.62, subdivision 2, is amended to read:

Subd. 2. **Biomedical science research facility.** "Biomedical science research facility" means a facility located on the campus of the University of Minnesota to be used as a research facility and laboratory for biomedical science and biomedical technology. A hospital licensed under sections 144.50 to 144.56 is not a biomedical science research facility. Biomedical science research facility includes the clinical research facility defined in this section.

Sec. 4. Minnesota Statutes 2018, section 137.62, is amended by adding a subdivision to read:

Subd. 3a. **Clinical research facility.** "Clinical research facility" means a facility located on the Twin Cities campus of the University of Minnesota to connect a broad array of clinical research units and activities from across the university, providing a consolidated home for the Clinical Translational Science Institute and related programs that support education, research, clinical training, and patient care.

Sec. 5. Minnesota Statutes 2018, section 137.63, is amended to read:

137.63 BIOMEDICAL SCIENCE RESEARCH FACILITIES FUNDING PROGRAM.

Subdivision 1. **Program established.** A biomedical science research facilities funding program is established to provide appropriations to the Board of Regents of the University of Minnesota for up to 75 percent of the project costs for each of four projects approved by the Board of Regents under section 137.64, other than the clinical research facility. Appropriations to the Board of Regents for the clinical research facility are for 100 percent of the project costs for design, land acquisition, site preparation, and preconstruction services.

Subd. 2. **Project requirements.** The Board of Regents of the University of Minnesota, either acting on its own or in collaboration with another private or public entity, must pay at least 25 percent of the project costs for each of four projects, other than the clinical research facility. The board must not use tuition revenue to pay for the university's share of the costs for the projects approved under section 137.64.

Sec. 6. Minnesota Statutes 2018, section 137.64, is amended to read:

137.64 CONDITIONS FOR PAYMENTS TO UNIVERSITY.

Subdivision 1. **Certifications.** Before the commissioner may make any payments authorized in this section to the Board of Regents for a biomedical science research facility project, the commissioner must certify that the board has, by board resolution, approved the maximum project cost for the project and complied with the requirements of section 137.63, ~~subdivision 2.~~ For each project approved by the board, the board must certify to the commissioner the amount of the annual payments of principal and interest required to service each series of bonds issued by the University of Minnesota for the project, and the actual amount of the state's annual payment to the University

of Minnesota under subdivision 2. The annual payment must not exceed the amount required to pay debt service on the bonds issued to finance 75 percent of the project costs of biomedical science research facilities authorized before 2019. The annual payment may additionally be for the amount required to pay debt service on the bonds issued to finance 100 percent of the costs of the clinical research facility.

Subd. 2. **Payments.** On July 15 of each year after the certification under subdivision 1, but no earlier than July 15, 2009, and for so long thereafter as any bonds issued by the board for ~~the construction of~~ a project, or any refunding bonds issued under subdivision 7, are outstanding, the state must transfer to the board annual payments as certified under subdivision 1, up to the maximum amounts in the appropriation schedule under subdivision 3. Payments under this section are to reimburse the Board of Regents for the state's share of the project costs for the biomedical science research facility projects, provided that the principal amount of bonds issued by the University of Minnesota to pay the state's share of the costs must not exceed \$219,000,000.

Subd. 3. **Appropriations.** Annual appropriations are made from the general fund to the commissioner of management and budget for transfer to the Board of Regents, as follows:

- (1) up to \$850,000 is appropriated in fiscal year 2010;

Subd. 4. **Report to legislature.** The Board of Regents must report to the committees of the legislature with responsibility for capital investment by January 15 of each even-numbered year on the biomedical science research facility projects authorized under this section. The report must at a minimum include for each project, the total cost, the number of researchers, research grants, and the amount of debt issued by the board.

Subd. 5. **Reinvestment.** The Board of Regents must, to the extent permitted under federal law and University of Minnesota policies, place a priority on reducing the state's share of project costs by dedicating a share of the proceeds from any commercialization or licensing revenues attributable to research conducted in the biomedical science facilities to reducing the appropriations needed under subdivision 3.

Subd. 6. **Services to individuals and firms.** Consistent with its mission and governing policies and the requirements for tax-exempt bonds, the university shall make available laboratory and other services on a fee-for-service basis to individuals and firms in the bioscience industry in Minnesota.

The university will not assert patent rights when providing services that do not involve its innovative intellectual contributions.

Subd. 7. Refunding of bonds; allocation of savings realized. (a) The board may issue bonds in one or more series to refund bonds that were issued for a project before January 1, 2019, if refunding is determined by the board to be in the best interest of the university. The principal amount of bonds issued in each refunding must not exceed the amount necessary to defease the associated bonds outstanding immediately prior to refunding. The amount of the state's annual payment to the university required for the debt service on the refunded bonds, or original bonds if not yet refunded, or a combination of the two, shall be up to the maximum annual appropriation under subdivision 3 for all series.

(b) The amount of the annual appropriation under subdivision 3 that is not needed to pay the annual debt service under paragraph (a) is appropriated to the Board of Regents of the University of Minnesota to pay the annual debt service amount on bonds issued by the university to pay the costs of design, land acquisition, site preparation, and preconstruction services of the clinical research facility.

(c) In any year that the state general fund appropriation authorized in this section exceeds the amount needed to pay debt service on bonds issued by the university for purposes specified in sections 137.61 to 137.65, the excess amount is canceled to the state general fund."

Subd. 2. **Authorization to issue appropriation bonds.** (a) Subject to the limitations of this subdivision, the commissioner may sell and issue appropriation bonds of the state under this section for public purposes as provided by law, including for the purposes of financing the cost of acquiring and installing electric vehicle charging infrastructure on publicly owned property. Appropriation bonds may be sold and issued in amounts that, in the opinion of the commissioner, are necessary to provide sufficient money to the commissioner of the Pollution Control Agency and the commissioner of administration under subdivision 7, not to exceed \$14,000,000 net of costs of issuance, for the purposes as provided under this subdivision, and to pay debt service including capitalized interest, costs of issuance, costs of credit enhancement, or make payments under other agreements entered into under paragraph (d).

(b) Proceeds of the appropriation bonds must be credited to a special appropriation electric vehicle infrastructure bond proceeds fund in the state treasury. All income from investment of the bond proceeds, as estimated by the commissioner, is appropriated to the commissioner for the payment of principal and interest on the appropriation bonds.

(c) Appropriation bonds may be issued in one or more issues or series on the terms and conditions the commissioner determines to be in the best interests of the state, but the term on any series of appropriation bonds may not exceed 21 years. The appropriation bonds of each issue and series thereof shall be dated and bear interest, and may be includable in or excludable from the gross income of the owners for federal income tax purposes.

(d) At the time of, or in anticipation of, issuing the appropriation bonds, and at any time thereafter, so long as the appropriation bonds are outstanding, the commissioner may enter into agreements and ancillary arrangements relating to the appropriation bonds, including but not limited to trust

indentures, grant agreements, lease or use agreements, operating agreements, management agreements, liquidity facilities, remarketing or dealer agreements, letter of credit agreements, insurance policies, guaranty agreements, reimbursement agreements, indexing agreements, or interest exchange agreements. Any payments made or received according to the agreement or ancillary arrangement shall be made from or deposited as provided in the agreement or ancillary arrangement. The determination of the commissioner, included in an interest exchange agreement, that the agreement relates to an appropriation bond, shall be conclusive.

(e) The commissioner may enter into written agreements or contracts relating to the continuing disclosure of information necessary to comply with or facilitate the issuance of appropriation bonds in accordance with federal securities laws, rules, and regulations, including Securities and Exchange Commission rules and regulations in Code of Federal Regulations, title 17, section 240.15c 2-12. (b) Every appropriation bond shall include a conspicuous statement of the limitation established in subdivision 6.

(c) Appropriation bonds may be sold at either public or private sale upon such terms as the commissioner shall determine are not inconsistent with this section and may be sold at any price or percentage of par value. Any bid received may be rejected.

(e) Notwithstanding any other law, appropriation bonds issued under this section shall be fully negotiable.

Subd. 4. **Refunding bonds.** The commissioner may issue appropriation bonds for the purpose of refunding any appropriation bonds then outstanding, including the payment of any redemption premiums on the bonds, any interest accrued or to accrue to the redemption date, and costs related to the issuance and sale of the refunding bonds. Any escrowed proceeds, pending such use, may be invested and reinvested in obligations that are authorized investments under section 11A.24. The income earned or realized on the investment may also be applied to the payment of the appropriation bonds to be refunded or interest or premiums on the refunded appropriation bonds, or to pay interest on the refunding bonds. After the terms of the escrow have been fully satisfied, any balance of the proceeds and any investment income may be returned to the general fund or, if applicable, the special appropriation electric vehicle infrastructure bond proceeds fund for use in any lawful manner. 126C.69 CAPITAL GRANTS AND LOANS.

Subdivision 1. **Capital grant and loan requests and uses.** Capital grants and loans are available only to qualifying districts. Capital grants and loans must not be used for the construction of swimming pools, ice arenas, athletic facilities, auditoriums, bus garages, or heating system improvements. Proceeds of the grants and loans may be used only for sites for education facilities and for acquiring, bettering, furnishing, or equipping education facilities. Contracts must be entered into within 18 months after the date on which each grant and loan is ~~granted~~ approved. For purposes of this section, "education facilities" includes space for Head Start programs and social service programs.

Subd. 2. **Capital loans grant and loan eligibility.** Beginning July 1, ~~1999~~ 2020, a district is not eligible for a capital grant and loan unless the district's estimated net debt tax rate as computed by the commissioner after debt service equalization aid would be more than 41.98 percent of adjusted net tax capacity. The estimate must assume a 20-year maturity schedule for new debt.

Subd. 3. **District request for review and comment.** A district or a joint powers district that intends to apply for a capital grant and loan must submit a proposal to the commissioner for review and comment according to section 123B.71 by July 1 of an odd-numbered year. The commissioner shall prepare a review and comment on the proposed facility, regardless of the amount of the capital expenditure required to construct the facility. In addition to the information provided under section 123B.71, subdivision 9, the commissioner shall require that predesign packages comparable to those required under section 16B.335 be prepared by the applicant school district. The predesign packages must be sufficient to define the scope, cost, and schedule of the project and must demonstrate that the project has been analyzed according to appropriate space needs standards and also consider the following criteria in determining whether to make a positive review and comment.

(a) To grant a positive review and comment the commissioner shall determine that all of the following conditions are met:

- (1) the facilities are needed for pupils for whom no adequate facilities exist or will exist;
- (2) there is evidence to indicate that the facilities will have a useful public purpose for at least the term of the bonds;
- (3) no form of cooperation with another district would provide the necessary facilities;

(4) the facilities are comparable in size and quality to facilities recently constructed in other districts that have similar enrollments;

(5) the facilities are comparable in size and quality to facilities recently constructed in other districts that are financed without a capital loan;

(6) the district is projected to have adequate funds in its general operating budget to support a quality education for its students for at least the next five years;

(7) the current facility poses a threat to the life, health, and safety of pupils, and cannot reasonably be brought into compliance with fire, health, or life safety codes;

(8) the district has made a good faith effort, as evidenced by its maintenance expenditures, to adequately maintain the existing facility during the previous ten years and to comply with fire, health, and life safety codes and state and federal requirements for accessibility for people with disabilities;

(9) the district has made a good faith effort to encourage integration of social service programs within the new facility;

(10) evaluations by boards of adjacent districts have been received; and

(11) the proposal includes a comprehensive technology plan that assures information access for the students, parents, and community.

(b) The commissioner may grant a negative review and comment if:

(1) the state demographer has examined the population of the communities to be served by the facility and determined that the communities have not grown during the previous five years;

(2) the state demographer determines that the economic and population bases of the communities to be served by the facility are not likely to grow or to remain at a level sufficient, during the next ten years, to ensure use of the entire facility;

(3) the need for facilities could be met within the district or adjacent districts at a comparable cost by leasing, repairing, remodeling, or sharing existing facilities or by using temporary facilities;

(4) the district plans do not include cooperation and collaboration with health and human services agencies and other political subdivisions; or

(5) if the application is for new construction, an existing facility that would meet the district's needs could be purchased at a comparable cost from any other source within the area.

Subd. 4. **Multiple district proposals; review and comment.** In addition to the requirements of subdivision 3, the commissioner may use additional requirements to determine a positive review and comment on projects that are designed to serve more than one district. These requirements may include:

(1) reducing or increasing the number of districts that plan to use the facility;

(2) location of the facility; and

(3) formation of a joint powers agreement among the participating districts.

Subd. 5. **Adjacent district comments.** The district must present the proposed project to the board of each adjacent district at a public meeting of that district. The board of an adjacent district must make a written evaluation of how the project will affect the future education and building needs of the adjacent district. The board must submit the evaluation to the applying district within 30 days of the meeting.

Subd. 6. **District application for capital grant and loan.** The school board of a district desiring a capital grant and loan shall adopt a resolution stating the amount proposed to be ~~borrowed~~ funded, the purpose for which the ~~debt is to be incurred~~ funding is requested, and an estimate of the dates when the facilities for which the ~~loan~~ funding is requested will be contracted for and completed. Applications for grants and loans must be accompanied by a copy of the adopted board resolution and copies of the adjacent district evaluations. The commissioner shall retain the evaluation as part of a permanent record of the district submitting the evaluation.

Applications must be in the form and accompanied by the additional data required by the commissioner. Applications must be received by the commissioner by September 1 of an odd-numbered year. A district must resubmit an application each odd-numbered year. Capital grant and loan applications that do not receive voter approval or are not approved in law cancel July 1 of the year following application. When an application is received, the commissioner shall obtain from the commissioner of revenue the information in the Revenue Department's official records that is required to be used in computing the debt limit of the district under section 475.53, subdivision 4.

Subd. 7. **Commissioner review; district proposals.** By November 1 of each odd-numbered year, the commissioner must review all applications for capital grants and loans that have received a positive review and comment. When reviewing applications, the commissioner must consider whether the criteria in subdivision 3 have been met. The commissioner may not approve an application if all of the required deadlines have not been met. The commissioner may either approve or reject an application for a capital grant and loan.

Subd. 8. **Commissioner recommendations.** The commissioner shall examine and consider applications for capital grants and loans that have been approved and promptly notify any district rejected of the decision.

The commissioner shall report each capital grant and loan that has been approved by the commissioner and that has received voter approval to the education committees of the legislature by January 1 of each even-numbered year. The commissioner must not report a capital grant and loan that has not received voter approval. The commissioner shall also report on the money remaining in the capital loan account and, if necessary, request that another bond issue be authorized.

Subd. 9. **Grant and loan amount limits.** (a) A grant and loan must not be recommended for approval for a district exceeding an amount computed as follows:

(1) the amount requested by the district under subdivision 6;

(2) plus the aggregate principal amount of general obligation bonds of the district outstanding on June 30 of the year following the year the application was received, not exceeding the limitation on net debt of the district in section 475.53, subdivision 4, or 637 percent of its adjusted net tax capacity as most recently determined, whichever is less;

(3) less the maximum net debt permissible for the district on December 1 of the year the application is received, under the limitation in section 475.53, subdivision 4, or 637 percent of its adjusted net tax capacity as most recently determined, whichever is less;

(4) less any amount by which the amount voted exceeds the total cost of the facilities for which the grant and loan is granted approved.

(b) The grant and loan may be approved in an amount computed as provided in paragraph (a), clauses (1) to (3), subject to later reduction according to paragraph (a), clause (4).

(c) The loan amount equals the lesser of the total grant and loan approved or:

(i) the product of the maximum effort tax rate times 50 times the district's most recent adjusted net tax capacity at the time the capital grant and loan is approved under subdivision 10, minus

(ii) the district's capital loan balance outstanding at the time the capital grant and loan is approved under subdivision 10, minus

(iii) the district's principal and interest balance outstanding for eligible bonds issued for prior capital projects at the time the capital loan and grant is approved.

(d) The grant amount equals the difference between the total grant and loan approved and the loan amount under paragraph (c).

Subd. 10. **Legislative action.** Each capital grant and loan must be approved in a law.

If the aggregate amount of the capital grants and loans exceeds the amount that is or can be made available, the commissioner shall allot the available amount among any number of qualified applicant districts, according to the commissioner's judgment and discretion, based upon the districts' respective needs.

Subd. 11. **District referendum.** After receipt of the review and comment on the project and before January 1 of the even-numbered year, the question authorizing the borrowing of money for the facilities must be submitted by the school board to the voters of the district at a regular or special election. The question submitted must state the total amount to be borrowed from all sources. Approval of a majority of those voting on the question is sufficient to authorize the issuance of the obligations on public sale in accordance with chapter 475. The face of the ballot must include the following statement: "APPROVAL OF THIS QUESTION DOES NOT GUARANTEE THAT THE SCHOOL DISTRICT WILL RECEIVE A CAPITAL GRANT AND LOAN FROM THE STATE. THE GRANT AND LOAN MUST BE APPROVED BY THE STATE LEGISLATURE AND IS DEPENDENT ON AVAILABLE FUNDING." The district must mail to the commissioner a certificate by the clerk showing the vote at the election.

Subd. 12. **Contract.** (a) Each capital grant and loan must be evidenced by a contract between the district and the state acting through the commissioner. The contract must obligate the state to reimburse the district, from the maximum effort school loan fund, for eligible capital expenses for construction of the facility for which the grant and loan is granted approved, an amount computed as provided in subdivision 9. The commissioner must receive from the district a certified resolution of the board estimating the costs of construction and reciting that contracts for construction of the facilities for which the grant and loan is granted approved have been awarded, that bonds of the district have been issued and sold or that other district funds have been set aside in the amount necessary to pay all estimated costs of construction in excess of the amount of the grant and loan, and that all work, when completed, meets or exceeds standards established in the State Building Code. The contract must obligate the district to repay the loan out of the excesses of its maximum effort debt service levy over its required debt service levy, ~~including interest at a rate equal to the weighted average annual rate payable on Minnesota state school loan bonds issued or reissued for the project.~~ Beginning July 1, 2020, no interest assessments shall be made on capital loan balances.

(b) The district must each year, as long as it is indebted to the state, levy for debt service (i) the amount of its maximum effort debt service levy or (ii) the amount of its required debt service levy, whichever is greater, ~~except as the required debt service levy may be reduced by a loan under section 126C.68.~~ The district shall remit payments to the commissioner according to section 126C.71. The actual debt service levy shall be adjusted under section 477A.09.

(c) The commissioner shall supervise the collection of outstanding accounts due the fund and may, by notice to the proper county auditor, require the maximum levy to be made as required in this subdivision. ~~Interest on capital loans must be paid on December 15 of the year after the year the loan is granted and annually in later years.~~ By September 30, the commissioner shall notify the county auditor of each county containing taxable property situated within the district of the amount of the maximum effort debt service levy of the district for that year. The county auditor or auditors shall extend upon the tax rolls an ad valorem tax upon all taxable property within the district in the aggregate amount so certified.

Subd. 13. **Loan forgiveness.** If any capital loan is not paid within 50 years after it is granted from maximum effort debt service levies in excess of required debt service levies, the liability of the district on the loan is satisfied and discharged and interest on the loan ceases.

Subd. 14. **Participation by county auditor; record of contract; payment of loan.** The district must file a copy of the capital loan contract with the county auditor of each county in which any part of the district is situated. The county auditor shall enter the capital loan, evidenced by the contract, in the auditor's bond register. The commissioner shall keep a record of each capital grant and loan ~~and~~ contract showing the name and address of the district, the date of the contract, and the amount of the grant and loan initially approved. On receipt of the resolution required in subdivision 12 ~~and documentation of expenditures under the contract~~, the commissioner shall issue payments, ~~which may be dispersed in accordance with the schedule in the contract~~, on the capital grant and loan account for the amount that may be disbursed under subdivision 1. ~~Interest on each disbursement of the capital loan amount accrues from the date on which the commissioner of management and budget issues the payment.~~

Subd. 15. **Bond sale limitations.** (a) A district having an outstanding state loan must not issue and sell any bonds on the public market, except to refund state loans, unless it agrees to make the

maximum effort debt service levy in each later year at the higher rate provided in section 126C.63, subdivision 8, and unless it schedules the maturities of the bonds according to section 475.54, subdivision 2. A district that refunds bonds at a lower interest rate may continue to make the maximum effort debt service levy in each later year at the current rate provided in section 126C.63, subdivision 8, if the district can demonstrate to the commissioner's satisfaction that the district's repayments of the state loan will not be reduced below the previous year's level. The district must report each sale to the commissioner.

(b) For a capital loan issued prior to July 1, 2001, after the district's capital loan has been outstanding for 30 years, the district must not issue bonds on the public market except to refund the loan.

(c) For a capital loan issued on or after July 1, 2001, after the district's capital loan has been outstanding for 20 years, the district must not issue bonds on the public market except to refund the loan.

Sec. 13. Minnesota Statutes 2018, section 126C.71, is amended to read:

126C.71 PAYMENT AND APPLICATIONS OF PAYMENT.

Subdivision 1. **Payment.** (a) On November 20 of each year, each district having an outstanding capital loan or debt service loan shall compute the excess amount in the debt redemption fund. The commissioner shall prescribe the form and calculation to be used in computing the excess amount. A completed copy of this form shall be sent to the commissioner before December 1 of each year. The commissioner may recompute the excess amount and shall promptly notify the district of the recomputed amount.

~~(b)~~ On December 15 of each year, the district shall remit to the commissioner, at a minimum, an amount equal to the greater of:

(i) the excess amount in the debt redemption fund; or

(ii) the amount by which the maximum effort debt service levy exceeds the required debt service levy for that calendar year.

~~Any late payments shall be assessed an interest charge using the interest rates specified for the debt service notes and capital loan contracts.~~

~~(e)~~ (b) If a payment required under ~~the Maximum Effort School Aid Law~~ paragraph (a) is not made within 30 days, the commissioner may reduce any subsequent payments due the district under this chapter and chapters 120B, 122A, 123A, 123B, 124D, 125A, and 127A by the amount due, after providing written notice to the district.

Sec. 14. Minnesota Statutes 2018, section 137.61, is amended to read:

137.61 PURPOSE.

Sections 137.61 to 137.65 provide for a biomedical science research funding program to further the investment in biomedical science research facilities in Minnesota to benefit the state's economy, advance the biomedical technology industry, benefit human health, and facilitate research collaboration between the University of Minnesota and other private and public institutions in this state. Sections 137.61 to 137.65 also provide funding for design, land acquisition, site preparation, and preconstruction services for the new clinical research facility on the University of Minnesota's Twin Cities campus.

Sec. 15. Minnesota Statutes 2018, section 137.62, subdivision 2, is amended to read:

Subd. 2. **Biomedical science research facility.** "Biomedical science research facility" means a facility located on the campus of the University of Minnesota to be used as a research facility and laboratory for biomedical science and biomedical technology. A hospital licensed under sections 144.50 to 144.56 is not a biomedical science research facility. Biomedical science research facility includes the clinical research facility defined in this section.

Sec. 16. Minnesota Statutes 2018, section 137.62, is amended by adding a subdivision to read:

Subd. 3a. **Clinical research facility.** "Clinical research facility" means a facility located on the Twin Cities campus of the University of Minnesota to connect a broad array of clinical research units and activities from across the university, providing a consolidated home for the Clinical Translational Science Institute and related programs that support education, research, clinical training, and patient care.

Sec. 17. Minnesota Statutes 2018, section 137.63, is amended to read:

137.63 BIOMEDICAL SCIENCE RESEARCH FACILITIES FUNDING PROGRAM.

Subdivision 1. **Program established.** A biomedical science research facilities funding program is established to provide appropriations to the Board of Regents of the University of Minnesota for up to 75 percent of the project costs for each of four projects approved by the Board of Regents under section 137.64, other than the clinical research facility. Appropriations to the Board of Regents for the clinical research facility are for 100 percent of the project costs for design, land acquisition, site preparation, and preconstruction services.

Subd. 2. **Project requirements.** The Board of Regents of the University of Minnesota, either acting on its own or in collaboration with another private or public entity, must pay at least 25 percent of the project costs for each of four projects, other than the clinical research facility. The board must not use tuition revenue to pay for the university's share of the costs for the projects approved under section 137.64.

Sec. 18. Minnesota Statutes 2018, section 137.64, is amended to read:

137.64 CONDITIONS FOR PAYMENTS TO UNIVERSITY.

Subdivision 1. **Certifications.** Before the commissioner may make any payments authorized in this section to the Board of Regents for a biomedical science research facility project, the commissioner must certify that the board has, by board resolution, approved the maximum project cost for the project and complied with the requirements of section 137.63, ~~subdivision 2.~~ For each project approved by the board, the board must certify to the commissioner the amount of the annual payments of principal and interest required to service each series of bonds issued by the University of Minnesota for the project, and the actual amount of the state's annual payment to the University of Minnesota under subdivision 2. The annual payment must not exceed the amount required to pay debt service on the bonds issued to finance 75 percent of the project costs of biomedical science research facilities authorized before 2019. The annual payment may additionally be for the amount required to pay debt service on the bonds issued to finance 100 percent of the costs of the clinical research facility.

Subd. 2. **Payments.** On July 15 of each year after the certification under subdivision 1, but no earlier than July 15, 2009, and for so long thereafter as any bonds issued by the board for ~~the construction of a project, or any refunding bonds issued under subdivision 7,~~ are outstanding, the state must transfer to the board annual payments as certified under subdivision 1, up to the maximum amounts in the appropriation schedule under subdivision 3. Payments under this section are to reimburse the Board of Regents for the state's share of the project costs for the biomedical science research facility projects, provided that the principal amount of bonds issued by the University of Minnesota to pay the state's share of the costs must not exceed \$219,000,000.

Subd. 3. **Appropriations.** Annual appropriations are made from the general fund to the commissioner of management and budget for transfer to the Board of Regents, as follows:

- (1) up to \$850,000 is appropriated in fiscal year 2010;
- (2) up to \$3,650,000 is appropriated in fiscal year 2011;
- (3) up to \$7,825,000 is appropriated in fiscal year 2012;
- (4) up to \$12,100,000 is appropriated in fiscal year 2013;
- (5) up to \$14,825,000 is appropriated in fiscal year 2014; ~~and~~
- (6) up to \$15,550,000 is appropriated in fiscal year 2015 and each year thereafter, ~~up to 25 years following the certification of the last project by the commissioner.~~ through fiscal year 2020; and
- (7) up to \$13,930,000 is appropriated in fiscal year 2021 and each year thereafter through fiscal year 2039.

Subd. 4. **Report to legislature.** The Board of Regents must report to the committees of the legislature with responsibility for capital investment by January 15 of each even-numbered year on the biomedical science research facility projects authorized under this section. The report must at a

minimum include for each project, the total cost, the number of researchers, research grants, and the amount of debt issued by the board.

Subd. 5. **Reinvestment.** The Board of Regents must, to the extent permitted under federal law and University of Minnesota policies, place a priority on reducing the state's share of project costs by dedicating a share of the proceeds from any commercialization or licensing revenues attributable to research conducted in the biomedical science facilities to reducing the appropriations needed under subdivision 3.

Subd. 6. **Services to individuals and firms.** Consistent with its mission and governing policies and the requirements for tax-exempt bonds, the university shall make available laboratory and other services on a fee-for-service basis to individuals and firms in the bioscience industry in Minnesota. The university will not assert patent rights when providing services that do not involve its innovative intellectual contributions.

Subd. 7. **Refunding of bonds; allocation of savings realized.** (a) The board may issue bonds in one or more series to refund bonds that were issued for a project before January 1, 2019, if refunding is determined by the board to be in the best interest of the university. The principal amount of bonds issued in each refunding must not exceed the amount necessary to defease the associated bonds outstanding immediately prior to refunding. The amount of the state's annual payment to the university required for the debt service on the refunded bonds, or original bonds if not yet refunded, or a combination of the two, shall be up to the maximum annual appropriation under subdivision 3 for all series.

(b) The amount of the annual appropriation under subdivision 3 that is not needed to pay the annual debt service under paragraph (a) is appropriated to the Board of Regents of the University of Minnesota to pay the annual debt service amount on bonds issued by the university to pay the costs of design, land acquisition, site preparation, and preconstruction services of the clinical research facility.

(c) In any year that the state general fund appropriation authorized in this section exceeds the amount needed to pay debt service on bonds issued by the university for purposes specified in sections 137.61 to 137.65, the excess amount is canceled to the state general fund.

Sec. 19. **[174.13] TRANSPORTATION FACILITIES CAPITAL PROGRAM.**

Subdivision 1. **Establishment; accounts.** (a) A transportation facilities capital program is established to prioritize among eligible projects that:

(1) support the programmatic mission of the department;

(2) extend the useful life of existing buildings; or

(3) renovate or construct facilities to meet the department's current and future operational needs. Projects under the transportation facilities capital program are funded by proceeds from the sale of trunk highway bonds or from other funds appropriated for the purposes of this section.

(b) A transportation facilities capital account is established in the trunk highway fund. The account consists of all money appropriated from the trunk highway fund for the purposes of this

section and any other money donated, allotted, transferred, or otherwise provided to the account by law. Money in the account is appropriated to the commissioner for the purposes specified and consistent with the standards and criteria set forth in this section.

(c) A transportation facilities capital account is established in the bond proceeds account of the trunk highway fund. The account consists of trunk highway bond proceeds appropriated to the commissioner. Money in the account may only be expended on trunk highway purposes, which includes the purposes in this section.

Subd. 2. **Standards.** (a) Minnesota Constitution, article XIV, section 11, states that trunk highway bonds may be issued to finance the construction, improvement, and maintenance of the public highway system in the state. The legislature assumes that many projects for preservation and replacement of portions of existing capital assets will constitute the construction, improvement, and maintenance of the public highway system within the meaning of the constitution and capital expenditures under generally accepted accounting principles, and will be financed more efficiently and economically under the program than by direct appropriations for specific projects.

(b) When allocating funding under this section, the commissioner must review the projects deemed eligible under subdivision 3 and prioritize allocations using the criteria in subdivision 4. Money allocated to a specific project in an appropriation or other law must be allocated as provided by the law.

Subd. 3. **Eligible expenditures; limitations.** (a) A project is eligible under this section only if it is a capital expenditure on a capital building asset owned or to be owned by the state within the meaning of accepted accounting principles as applied to public expenditures.

(b) Capital budget expenditures that are eligible under this section include but are not limited to: acquisition of land and buildings and the predesign, engineering, construction, furnishing, and equipping of district headquarter buildings, truck stations, salt storage or other unheated storage buildings, deicing and anti-icing facilities, fuel-dispensing facilities, highway rest areas, and vehicle weigh and inspection stations.

Subd. 4. **Criteria for priorities.** When prioritizing funding allocation among projects eligible under subdivision 3, the commissioner must consider:

- (1) whether a project ensures the effective and efficient condition and operation of the facility;
- (2) the urgency in ensuring the safe use of existing buildings;
- (3) the project's total life-cycle cost;
- (4) additional criteria for priorities otherwise specified in law, statute, or rule that applies to a category listed in the act making an appropriation for the program; and
- (5) any other criteria the commissioner deems necessary.

Sec. 20. **[240A.20] PROMOTING CONSTRUCTION AND RENOVATION OF PUBLIC SKATE PARKS THROUGHOUT THE STATE.**

Subdivision 1. **Definition.** For purposes of this section, "skate" means wheeled, nonmotorized recreation, including skateboarding, roller blading, and roller skating, and not including cycling or biking.

Subd. 2. **Promotion of public skate parks.** The Minnesota Amateur Sports Commission shall:

(1) develop new statewide public skate parks; and

(2) provide matching grants to local units of government for public skate parks based on the criteria in this section.

Subd. 3. **Criteria for grants to local units of government for public skate parks.** (a) The commission shall administer a site selection process for the skate parks. The commission shall invite proposals from cities or counties or consortia of cities. A proposal for a skate park must include matching contributions including in-kind contributions of land, access roadways and access roadway improvements, and necessary utility services, landscaping, and parking.

(b) The location for all proposed facilities must be in areas of maximum demonstrated interest and must maximize accessibility to an arterial highway, transit, or pedestrian or bike path.

(c) To the extent possible, all proposed facilities must be dispersed equitably, must be located to maximize potential for full utilization, must accommodate noncompetitive family and community skating for all ages, and must encourage use of skate parks by a diverse population.

(d) The commission will give priority to proposals that come from more than one local government unit.

(e) The commission may also use the money to upgrade, rehabilitate, or renovate current facilities.

(f) To the extent possible, 50 percent of all grants must be awarded to communities in greater Minnesota.

(g) A grant for a new facility may not exceed \$250,000 unless the grantee demonstrates that the facility will have a regional or statewide draw.

(h) Grant money may be used to upgrade existing facilities to comply with the bleacher safety requirements of section 326B.112.

Subd. 4. **Technical assistance.** To the extent possible, the commission shall provide technical assistance on skate park planning, design, and operation to communities.

Subd. 5. **Agreements with local governments and cooperative purchasing agreements.** (a) The Minnesota Amateur Sports Commission may enter into agreements with local units of government and provide financial assistance in the form of grants for the construction of skate parks that, in the determination of the commission, conform to its criteria.

(b) The commission may enter into cooperative purchasing agreements under section 471.59 with local governments to purchase skate park equipment and services through state contracts. The cooperative skate park equipment purchasing revolving fund is a separate account in the state treasury. The commission may charge a fee to cover the commission's administrative expenses to

government units that have joint or cooperative purchasing agreements with the state under section 471.59. The fees collected must be deposited in the revolving fund established by this subdivision. Money in the fund is appropriated to the commission to administer the programs and services covered by this subdivision.

Subd. 6. **General obligation special tax bonds for skate parks.** State general obligation bonds issued to finance the construction of the skate parks provided for in this section may be general obligation special tax bonds under section 16A.661 and debt service on the bonds may be paid from sports and health club sales tax revenue as provided in section 16A.661, subdivision 3, paragraph (b).

Page 5, after line 23, insert:

"Sec. 5. **BIOMASS BUSINESS COMPENSATION.**

Subdivision 1. **Definitions.** (a) For the purposes of this section, the following terms have the meanings given.

(b) "Biomass plant" means the biomass plant identified under Minnesota Statutes, section 116C.779, subdivision 1, paragraph (f).

(c) "Early termination" means the early termination of the power purchase agreement authorized under Minnesota Statutes, section 216B.2424, subdivision 9, with the biomass plant.

(d) "Operating income" means a business's revenue minus its operating expenses.

Subd. 2. **Office of Administrative Hearings; claims process.** (a) The chief administrative law judge of the Office of Administrative Hearings must assign an administrative law judge to administer a claims award process to compensate businesses negatively affected by the early termination. The chief administrative law judge may develop a process, prescribe forms, identify documentation affected businesses must submit with claims, and issue awards to eligible businesses consistent with this section. The process must allow, but not require, an authorized representative from each business

that applies for compensation to appear in person before the assigned administrative law judge to provide evidence in support of the business's claim.

(b) The chief administrative law judge may contract with and use the services of financial or other consultants to examine financial documentation presented by claimants or otherwise assist in the evaluation and award of claims.

(c) Records submitted to the Office of Administrative Hearings as part of the claims process constitute business data under Minnesota Statutes, section 13.591.

(d) An award made under this section is final and not subject to judicial review.

(e) An award made under this section does not constitute an admission of liability by the state for any damages or other losses suffered by a business affected by the early termination.

Subd. 3. **Eligibility.** To be eligible for an award of compensation, an affected business must meet the following criteria:

(1) as of May 1, 2017, the affected business was operating under the terms of a valid written contract, or an oral contract that is sufficiently supported by business records, with the company operating the biomass plant or the fertilizer plant integrated with the biomass plant to supply or manage material for, or receive material from, the biomass plant or the fertilizer plant integrated with the biomass plant;

(2) the affected business is located in the state; and

(3) as the result of the early termination, the affected business suffered:

(i) decreased operating income; or

(ii) the loss of value of investments in real or personal property essential to its business operations with the biomass plant.

Subd. 4. **Types of claims.** (a) An eligible business may make claims for a compensation award based on either or both:

(1) decreased operating income; or

(2) the loss of value of investments in real or personal property essential to its business operations with the biomass plant.

(b) To establish and quantify a claim for decreased operating income, an eligible business must:

(1) demonstrate its operating income over the past five years derived from supplying or managing material for, or receiving material from, the biomass plant;

(2) present evidence of any alternative business opportunities it has pursued or could pursue to mitigate the loss of revenue from the termination of its contract with the biomass plant; and

(3) demonstrate the amount that the business's annual operating income, including operating income from any alternative business opportunities, after the termination of the business's contract with the biomass plant is less than the five-year average of the business's annual operating income before the early termination;

(c) To establish and quantify a loss of value of investments in real or personal property claim, an eligible business must provide sufficient evidence of:

(1) the essential nature of the investment made in the property to fulfill the contract with the biomass plant;

(2) the extent to which the eligible business is able to repurpose the property for another productive use after the early termination, including but not limited to the use, sales, salvage, or scrap value of the property for which the loss is claimed; and

(3) the value of the eligible business's nondepreciated investment in the property.

Subd. 5. Limitations on awards. (a) A compensation award for a decreased operating income claim must not exceed the amount calculated under subdivision 4, paragraph (b), clause (3), multiplied by two.

(b) The use, sales, salvage, or scrap value of the property for which a loss is claimed must be deducted from a compensation award for a loss of value of investments in real or personal property claim.

(c) A payment received from business interruption insurance policies, settlements, or other forms of compensation related to the termination of the business's contract with the biomass plant must be deducted from any compensation award provided under this section.

Subd. 6. Priority. The chief administrative law judge may give priority to claims by eligible businesses that demonstrate a significant effort to pursue alternative business opportunities or to conduct other loss mitigation efforts to reduce its claimed losses related to the termination of its contract with the company operating the biomass plant.

Subd. 7. Awarding claims. If the amount provided for compensation in the biomass business compensation account established under section 6 is insufficient to fully award all claims eligible for an award, all awards must be adjusted proportionally based on the value of the claim.

Subd. 8. Deadlines. The chief administrative law judge must make the application process for eligible claims available by August 1, 2020. A business seeking an award under this section must file all claims with the chief administrative law judge within 60 days of the date the chief administrative law judge makes the application process for eligible claims available. All preliminary awards on eligible claims must be made within 120 days of the deadline date to file claims. Any requests to reconsider an award denial must be filed with the chief administrative law judge within 60 days of the notice date for preliminary awards. All final awards for eligible claims must be made within 60 days of the deadline date to file reconsideration requests. The commissioner of management and budget must pay all awarded claims within 45 days of the date the commissioner of management and budget receives notice of the final awards from the chief administrative law judge.

Subd. 9. **Expiration.** This section expires June 30, 2022.

EFFECTIVE DATE. This section is effective the day following final enactment.

Subd. 2. **Funding for the special account.** Notwithstanding Minnesota Statutes, section 116C.779, subdivision 1, paragraph (j), on July 1, 2020, \$20,000,000, and on July 1, 2021, \$20,000,000 must be transferred from the renewable development account under Minnesota Statutes, section 116C.779, to the biomass business compensation account established under subdivision 1. The transferred funds are appropriated to pay eligible obligations under the biomass business compensation program established under section 5.

Subd. 3. **Payment of expenses.** The chief administrative law judge must certify to the commissioner of management and budget the total costs incurred to administer the biomass business compensation claims process. The commissioner of management and budget must transfer an amount equal to the certified costs incurred for biomass business compensation claim activities from the renewable development account under Minnesota Statutes, section 116C.779, and deposit it in the administrative hearings account under Minnesota Statutes, section 14.54. If a security interest has been perfected, the department must notify the owner that each secured party must release or satisfy the security interest prior to proceeding with surrender of the manufacturer's certificate of origin or certificate of title to the department for cancellation. Permanent attachment to real property or the recording of an affidavit of affixation does not extinguish an otherwise valid security interest in or tax lien on the manufactured home, unless the requirements of subdivisions 1 to 3, including the release of any security interest, have been satisfied.

Subd. 4. **Notice of security interest.** When a perfected security interest exists, or will exist, on the manufactured home at the time the manufactured home is affixed to real property, and the owner has not satisfied the requirements of subdivision 1, the owner of the manufactured home, or its secured party, may record a notice with the county recorder, or with the registrar of titles, if the land is registered, stating that the manufactured home located on the property is encumbered by a perfected security interest and is not an improvement to real property. The notice must state the name and address of the secured party as set forth on the certificate of title, the legal description of the real property, and the name and address of the record fee owner of the real property on which the manufactured home is affixed. When the security interest is released or satisfied, the secured party must attach a copy of the release or satisfaction to a notice executed by the secured party containing the county recorder or registrar of titles document number of the notice of security interest. The notice of release or satisfaction must be recorded with the county recorder, or registrar of titles, if the land is registered. Neither the notice described in this subdivision nor the security interest on the certificate of title is deemed to be an encumbrance on the real property. The notices provided for in this subdivision need not be acknowledged.

Subd. 5. **Scaled drawing.** (a) If the portion of the land occupied by the homeowner has not been subdivided, the nonprofit or cooperative owner shall have prepared and recorded against the land a scaled drawing prepared by a licensed professional land surveyor, who shall certify that:

(1) the scaled drawing accurately depicts all information required by this subdivision; and

(2) the work was undertaken by, or reviewed and approved by, the certifying land surveyor.

(b) The scaled drawing shall show:

(1) the dimensions and location of all existing material structural improvements and roadways;

(2) the extent of any encroachments by or upon any portion of the land;

(3) the location and dimensions of all recorded easements within the land burdening any portion of the land;

(4) the distance and direction between noncontiguous parcels of real estate;

(5) the location and dimensions of the front, rear, and side boundaries of each lot that a member of the cooperative or nonprofit corporation has a right to occupy and that lot's unique lot number; and

(6) the legal description of the land.

Sec. 2. Minnesota Statutes 2018, section 273.125, subdivision 8, is amended to read:

Subd. 8. **Manufactured homes; sectional structures.** (a) In this section, "manufactured home" means a structure transportable in one or more sections, which is built on a permanent chassis, and designed to be used as a dwelling with or without a permanent foundation when connected to the required utilities, and contains the plumbing, heating, air conditioning, and electrical systems in it. Manufactured home includes any accessory structure that is an addition or supplement to the manufactured home and, when installed, becomes a part of the manufactured home.

(b) Except as provided in paragraph (c), a manufactured home that meets each of the following criteria must be valued and assessed as an improvement to real property, the appropriate real property classification applies, and the valuation is subject to review and the taxes payable in the manner provided for real property:

(1) ~~the owner of the unit holds~~ title to the land on which it is situated is held by: (i) the owner of the unit; or (ii) a Minnesota nonprofit corporation or a Minnesota cooperative to which the owner is a member;

(2) the unit is affixed to the land by a permanent foundation or is installed at its location in accordance with the Manufactured Home Building Code in sections 327.31 to 327.34, and rules adopted under those sections, or is affixed to the land like other real property in the taxing district; and

(3) the unit is connected to public utilities, has a well and septic tank system, or is serviced by water and sewer facilities comparable to other real property in the taxing district.

(c) A manufactured home that meets each of the following criteria must be assessed at the rate provided by the appropriate real property classification but must be treated as personal property, and the valuation is subject to review and the taxes payable in the manner provided in this section:

(1) the owner of the unit is a lessee of the land under the terms of a lease, or the unit is located in a manufactured home park but is not the homestead of the park owner;

(2) the unit is affixed to the land by a permanent foundation or is installed at its location in accordance with the Manufactured Home Building Code contained in sections 327.31 to 327.34, and the rules adopted under those sections, or is affixed to the land like other real property in the taxing district; and

(3) the unit is connected to public utilities, has a well and septic tank system, or is serviced by water and sewer facilities comparable to other real property in the taxing district.

(d) Sectional structures must be valued and assessed as an improvement to real property if the owner of the structure holds title to the land on which it is located or is a qualifying lessee of the land under section 273.19. In this paragraph "sectional structure" means a building or structural unit that has been in whole or substantial part manufactured or constructed at an off-site location to be wholly or partially assembled on site alone or with other units and attached to a permanent foundation.

(e) The commissioner of revenue may adopt rules under the Administrative Procedure Act to establish additional criteria for the classification of manufactured homes and sectional structures under this subdivision.

(f) A storage shed, deck, or similar improvement constructed on property that is leased or rented as a site for a manufactured home, sectional structure, park trailer, or travel trailer is taxable as provided in this section. In the case of property that is leased or rented as a site for a travel trailer, a storage shed, deck, or similar improvement on the site that is considered personal property under this paragraph is taxable only if its total estimated market value is over \$10,000. The property is taxable as personal property to the lessee of the site if it is not owned by the owner of the site. The property is taxable as real estate if it is owned by the owner of the site. As a condition of permitting

the owner of the manufactured home, sectional structure, park trailer, or travel trailer to construct improvements on the leased or rented site, the owner of the site must obtain the permanent home address of the lessee or user of the site. The site owner must provide the name and address to the assessor upon request.

Sec. 3. Minnesota Statutes 2018, section 326B.106, subdivision 1, is amended to read:

Subdivision 1. **Adoption of code.** (a) Subject to paragraphs (c) and (d) and sections 326B.101 to 326B.194, the commissioner shall by rule and in consultation with the Construction Codes Advisory Council establish a code of standards for the construction, reconstruction, alteration, and repair of buildings, governing matters of structural materials, design and construction, fire protection, health, sanitation, and safety, including design and construction standards regarding heat loss control, illumination, and climate control. The code must also include duties and responsibilities for code administration, including procedures for administrative action, penalties, and suspension and revocation of certification. The code must conform insofar as practicable to model building codes generally accepted and in use throughout the United States, including a code for building conservation. In the preparation of the code, consideration must be given to the existing statewide specialty codes presently in use in the state. Model codes with necessary modifications and statewide specialty codes may be adopted by reference. The code must be based on the application of scientific principles, approved tests, and professional judgment. To the extent possible, the code must be adopted in terms of desired results instead of the means of achieving those results, avoiding wherever possible the incorporation of specifications of particular methods or materials. To that end the code must encourage the use of new methods and new materials. Except as otherwise provided in sections 326B.101 to 326B.194, the commissioner shall administer and enforce the provisions of those sections.

(b) The commissioner shall develop rules addressing the plan review fee assessed to similar buildings without significant modifications including provisions for use of building systems as specified in the industrial/modular program specified in section 326B.194. Additional plan review fees associated with similar plans must be based on costs commensurate with the direct and indirect costs of the service.

(c) ~~Beginning with the 2018 edition of the model building codes and in 2026 and~~ every six years thereafter, the commissioner shall review the new model building codes and adopt the model codes as amended for use in Minnesota, within two years of the published edition date. The commissioner may not adopt new model building codes or amendments to the building codes prior to the adoption of the new building codes to advance construction methods, technology, or materials, or, where necessary to protect the health, safety, and welfare of the public, or to improve the efficiency or the use of a building ~~2026, unless approved by law.~~

(d) Notwithstanding paragraph (c), the commissioner shall act on each new model residential energy code and the new model commercial energy code in accordance with federal law for which the United States Department of Energy has issued an affirmative determination in compliance with United States Code, title 42, section 6833. The commissioner may not adopt new energy codes or amendments prior to adoption of to the new energy codes, as amended for use in Minnesota, to advance construction methods, technology, or materials, or, where necessary to protect the health, safety, and welfare of the public, or to improve the efficiency or use of a building unless the commissioner has determined that any increased cost to residential construction or remodeling per

unit due to implementation of the proposed changes to the energy codes will be offset within five years by savings resulting from the change.

(e) The limitations on adoption of new or amended codes under paragraphs (c) and (d) do not apply to new or amended code changes necessary to protect the immediate health, safety, and welfare of the public.

EFFECTIVE DATE. This section is effective retroactively from January 1, 2020, and applies to rules proposed or adopted but not yet effective as of January 1, 2020.

Sec. 4. Minnesota Statutes 2018, section 326B.106, subdivision 7, is amended to read:

Subd. 7. **Window fall prevention device code.** The commissioner of labor and industry shall adopt rules for window fall prevention devices as part of the State Building Code. Window fall prevention devices include, but are not limited to, safety screens, hardware, guards, and other devices that comply with the standards established by the commissioner of labor and industry. The rules shall require compliance with standards for window fall prevention devices developed by ASTM International, contained in the International Building Code as the model language with amendments deemed necessary to coordinate with the other adopted building codes in Minnesota. The rules shall establish a scope that includes the applicable building occupancies, excluding single-family homes, and the types, locations, and sizes of windows that will require the installation of fall devices.

Sec. 5. Minnesota Statutes 2018, section 326B.145, is amended to read:

326B.145 ANNUAL REPORT.

(a) Each municipality shall annually report by June 30 to the department, in a format prescribed by the department, all construction and development-related fees collected by the municipality from developers, builders, and subcontractors if the cumulative fees collected exceeded ~~\$5,000~~ \$7,000 in the reporting year, ~~except that, for reports due June 30, 2009, to June 30, 2013, the reporting threshold is \$10,000.~~

(b) The report must include:

(1) the number and valuation of units for which fees were paid;

(2) the amount of building permit fees, plan review fees, administrative fees, engineering fees, infrastructure fees, and other construction and development-related fees; and

(3) the expenses associated with the municipal activities for which fees were collected, including a separate listing of costs associated with conducting inspections for each of the following categories:

(i) labor;

(ii) transportation;

(iii) office space; and

(iv) any other expenses incurred by the municipality as a result of conducting inspections.

(c) A municipality that collects \$7,000 or less in a reporting year from all construction and development-related fees shall report that the municipality collected \$7,000 or less in the reporting year by indicating as such on a form provided by the department.

(d) In developing the form for reporting, the department must include a list of common definitions for all categories of construction and development-related fees collected by municipalities and a summary of penalties that may result from annual report noncompliance as allowed by section 326B.082. A municipality that collects a fee not included in the common list of definitions must report the fee as "other" and provide an explanation of the fee.

(e) A municipality that fails to report to the department in accordance with this section is subject to the remedies provided by section 326B.082.

EFFECTIVE DATE. This section is effective January 1, 2021.

Sec. 6. Minnesota Statutes 2018, section 462.352, subdivision 5, is amended to read:

Subd. 5. **Comprehensive municipal plan.** (a) "Comprehensive municipal plan" means a compilation of policy statements, goals, standards, and maps for guiding the physical, social and economic development, both private and public, of the municipality and its environs, and may include, but is not limited to, the following: statements of policies, goals, standards, a land use plan, including proposed densities for development, a community facilities plan, a transportation plan, and recommendations for plan execution. A comprehensive plan represents the planning agency's recommendations for the future development of the community.

(b) As part of the comprehensive municipal plan, municipalities are encouraged to enact public policy to facilitate the development of unsubsidized affordable housing. These policies may include but are not limited to the municipal plan authorizing smaller lot sizes for single-family homes, allowing the construction of duplexes through fourplexes on lots that would otherwise be zoned exclusively for single-family houses, and allowing for mixed-use development.

Sec. 7. **[462.3575] LIMITING REGULATIONS ON RESIDENTIAL DEVELOPMENT.**

A municipality shall not condition approval of a residential building permit, subdivision development, or planned unit development on the use of specific materials, design, amenities, or other aesthetic conditions that are not required by the State Building Code under chapter 326B.

Sec. 8. Minnesota Statutes 2018, section 462A.05, subdivision 14, is amended to read:

Subd. 14. **Rehabilitation loans.** It may agree to purchase, make, or otherwise participate in the making, and may enter into commitments for the purchase, making, or participation in the making, of eligible loans for rehabilitation, with terms and conditions as the agency deems advisable, to persons and families of low and moderate income, and to owners of existing residential housing for occupancy by such persons and families, for the rehabilitation of existing residential housing owned by them. The loans may be insured or uninsured and may be made with security, or may be unsecured, as the agency deems advisable. The loans may be in addition to or in combination with long-term eligible mortgage loans under subdivision 3. They may be made in amounts sufficient to refinance existing indebtedness secured by the property, if refinancing is determined by the agency to be necessary to permit the owner to meet the owner's housing cost without expending an unreasonable

portion of the owner's income thereon. No loan for rehabilitation shall be made unless the agency determines that the loan will be used primarily to make the housing more desirable to live in, to increase the market value of the housing, for compliance with state, county or municipal building, housing maintenance, fire, health or similar codes and standards applicable to housing, or to accomplish energy conservation related improvements. In unincorporated areas and municipalities not having codes and standards, the agency may, solely for the purpose of administering the provisions of this chapter, establish codes and standards. ~~Except for accessibility improvements under this subdivision and subdivisions 14a and 24, clause (1), no secured loan for rehabilitation of any owner-occupied property shall be made in an amount which, with all other existing indebtedness secured by the property, would exceed 110 percent of its market value, as determined by the agency.~~ No loan under this subdivision for the rehabilitation of owner-occupied housing shall be denied solely because the loan will not be used for placing the owner-occupied residential housing in full compliance with all state, county, or municipal building, housing maintenance, fire, health, or similar codes and standards applicable to housing. Rehabilitation loans shall be made only when the agency determines that financing is not otherwise available, in whole or in part, from private lenders upon equivalent terms and conditions. Accessibility rehabilitation loans authorized under this subdivision may be made to eligible persons and families without limitations relating to the maximum incomes of the borrowers if:

(1) the borrower or a member of the borrower's family requires a level of care provided in a hospital, skilled nursing facility, or intermediate care facility for persons with developmental disabilities;

(2) home care is appropriate; and

(3) the improvement will enable the borrower or a member of the borrower's family to reside in the housing.

The agency may waive any requirement that the housing units in a residential housing development be rented to persons of low and moderate income if the development consists of four or less dwelling units, one of which is occupied by the owner.

Sec. 9. Minnesota Statutes 2018, section 462A.05, subdivision 14a, is amended to read:

Subd. 14a. **Rehabilitation loans; existing owner-occupied residential housing.** It may make loans to persons and families of low and moderate income to rehabilitate or to assist in rehabilitating existing residential housing owned and occupied by those persons or families. Rehabilitation may include the replacement of manufactured homes. No loan shall be made unless the agency determines that the loan will be used primarily for rehabilitation work necessary for health or safety, essential accessibility improvements, or to improve the energy efficiency of the dwelling. No loan for rehabilitation of owner-occupied residential housing shall be denied solely because the loan will not be used for placing the residential housing in full compliance with all state, county or municipal building, housing maintenance, fire, health or similar codes and standards applicable to housing. The amount of any loan shall not exceed the lesser of (a) a maximum loan amount determined under rules adopted by the agency not to exceed \$27,000, or (b) the actual cost of the work performed, or (c) that portion of the cost of rehabilitation which the agency determines cannot otherwise be paid by the person or family without the expenditure of an unreasonable portion of the income of the person or family. Loans made in whole or in part with federal funds may exceed the maximum loan

amount to the extent necessary to comply with federal lead abatement requirements prescribed by the funding source. In making loans, the agency shall determine the circumstances under which and the terms and conditions under which all or any portion of the loan will be repaid and shall determine the appropriate security for the repayment of the loan. Loans pursuant to this subdivision may be made with or without interest or periodic payments.

Sec. 10. Minnesota Statutes 2019 Supplement, section 462A.24, is amended to read:

(b) To the extent practicable, the agency shall award grant and loan amounts with a reasonable balance between nonmetropolitan and metropolitan areas of the state.

(c) Beginning with applications made in response to requests for proposals issued after July 1, 2020, after final decisions are made on applications for programs of the agency, the results of any quantitative scoring system used to rank applications shall be posted on the agency website.

(d) The agency shall award points in the agency's decision-making criteria for all programs of the agency based on how quickly a project can be constructed.

(e) To the extent practicable, the agency shall enter into individual grant contracts for each single-family home that is constructed with grant financing by the agency.

Subd. 2a. **Housing pool allocation.** (a) Commencing on the second Tuesday in January and continuing on each Monday through the last Monday in June, the commissioner shall allocate available bonding authority from the housing pool to applications received on or before the Monday of the preceding week for residential rental projects that meet the eligibility criteria under section 474A.047. Allocations of available bonding authority from the housing pool for eligible residential rental projects shall be awarded in the following order of priority:

- (1) preservation projects;
- (2) 30 percent AMI residential rental projects;
- (3) 50 percent AMI residential rental projects;
- (4) 100 percent LIHTC projects;
- (5) 20 percent LIHTC projects; and

(6) other residential rental projects for which the amount of bonds requested in their respective applications do not exceed the aggregate bond limitation.

If there are two or more applications for residential rental projects at the same priority level and there is insufficient bonding authority to provide allocations for all the projects in any one allocation period, available bonding authority shall be ~~randomly~~ awarded by not giving preference for projects with a lower cost-per-unit of housing but only for projects that can receive the full amount of their respective requested allocations. If a residential rental project does not receive any of its requested allocation pursuant to this paragraph and the project applies for an allocation of bonds again in the same calendar year or to the next successive housing pool, the project shall be fully funded up to its original application request for bonding authority before any new project, applying in the same allocation period, that has an equal priority shall receive bonding authority. An issuer that receives an allocation under this paragraph must issue obligations equal to all or a portion of the allocation

received on or before 180 days of the allocation. If an issuer that receives an allocation under this paragraph does not issue obligations equal to all or a portion of the allocation received within the time period provided in this paragraph or returns the allocation to the commissioner, the amount of the allocation is canceled and returned for reallocation through the housing pool or to the unified pool after July 1.

(2) the adjusted income of home buyers may not exceed 80 percent of the greater of statewide or area median income as published by the Department of Housing and Urban Development, adjusted for household size;

(3) house price limits may not exceed the federal price limits established for mortgage revenue bond programs. Data on the home purchase price amount, mortgage amount, income, household size, and race of the households served in the previous year's single-family housing program, if any, must be included in each application; and

(4) for applicants who choose to have the agency issue bonds on their behalf, an application fee pursuant to section 474A.03, subdivision 4, and an application deposit equal to one percent of the requested allocation must be submitted to the Minnesota Housing Finance Agency before the agency forwards the list specifying the amounts allocated to the commissioner under paragraph (d). The agency shall submit the city's application fee and application deposit to the commissioner when requesting an allocation from the housing pool.

Applications by a consortium shall include the name of each member of the consortium and the amount of allocation requested by each member.

(c) Any amounts remaining in the housing pool after June 15 are available for single-family housing programs for cities that applied in January and received an allocation under this section in the same calendar year. For a city that chooses to issue bonds on its own behalf or pursuant to a joint powers agreement, the agency must allot available bonding authority based on the formula in paragraphs (d) and (f). Allocations will be made loan by loan, on a first-come, first-served basis among cities on whose behalf the Minnesota Housing Finance Agency issues bonds.

Any city that received an allocation pursuant to paragraph (f) in the same calendar year that wishes to issue bonds on its own behalf or pursuant to a joint powers agreement for an amount becoming available for single-family housing programs after June 15 shall notify the Minnesota Housing Finance Agency by June 15. The Minnesota Housing Finance Agency shall notify each city making a request of the amount of its allocation within three business days after June 15. The city must comply with paragraph (f).

For purposes of paragraphs (a) to (h), "city" means a county or a consortium of local government units that agree through a joint powers agreement to apply together for single-family housing programs, and has the meaning given it in section 462C.02, subdivision 6. "Agency" means the Minnesota Housing Finance Agency.

(d) The total amount of allocation for mortgage bonds for one city is limited to the lesser of: (i) the amount requested, or (ii) the product of the total amount available for mortgage bonds from the housing pool, multiplied by the ratio of each applicant's population as determined by the most recent estimate of the city's population released by the state demographer's office to the total of all the applicants' population, except that each applicant shall be allocated a minimum of \$100,000 regardless of the amount requested or the amount determined under the formula in clause (ii). If a city applying for an allocation is located within a county that has also applied for an allocation, the city's population will be deducted from the county's population in calculating the amount of allocations under this paragraph.

Upon determining the amount of each applicant's allocation, the agency shall forward to the commissioner a list specifying the amounts allotted to each application with all application fees and deposits from applicants who choose to have the agency issue bonds on their behalf.

Total allocations from the housing pool for single-family housing programs may not exceed 27 percent of the adjusted allocation to the housing pool until after June 15 in 2020 and 2021, after which the allocations may not exceed 31 percent of the adjusted allocation to the housing pool until after June 15.

(e) The agency may issue bonds on behalf of participating cities. The agency shall request an allocation from the commissioner for all applicants who choose to have the agency issue bonds on their behalf and the commissioner shall allocate the requested amount to the agency. The agency may request an allocation at any time after the second Tuesday in January and through the last Monday in June. After awarding an allocation and receiving a notice of issuance for the mortgage bonds issued on behalf of the participating cities, the commissioner shall transfer the application deposits to the Minnesota Housing Finance Agency to be returned to the participating cities. The Minnesota Housing Finance Agency shall return any application deposit to a city that paid an application deposit under paragraph (b), clause (4), but was not part of the list forwarded to the commissioner under paragraph (d).

(f) A city may choose to issue bonds on its own behalf or through a joint powers agreement and may request an allocation from the commissioner by forwarding an application with an application fee pursuant to section 474A.03, subdivision 4, and a one percent application deposit to the commissioner no later than the Monday of the week preceding an allocation. If the total amount requested by all applicants exceeds the amount available in the pool, the city may not receive a greater allocation than the amount it would have received under the list forwarded by the Minnesota Housing Finance Agency to the commissioner. No city may request or receive an allocation from the commissioner until the list under paragraph (d) has been forwarded to the commissioner. A city must request an allocation from the commissioner no later than the last Monday in June. No city may receive an allocation from the housing pool for mortgage bonds which has not first applied to the Minnesota Housing Finance Agency. The commissioner shall allocate the requested amount to the city or cities subject to the limitations under this paragraph.

If a city issues mortgage bonds from an allocation received under this paragraph, the issuer must provide for the recycling of funds into new loans. If the issuer is not able to provide for recycling, the issuer must notify the commissioner in writing of the reason that recycling was not possible and the reason the issuer elected not to have the Minnesota Housing Finance Agency issue the bonds.

"Recycling" means the use of money generated from the repayment and prepayment of loans for further eligible loans or for the redemption of bonds and the issuance of current refunding bonds.

(g) No entitlement city or county or city in an entitlement county may apply for or be allocated authority to issue mortgage bonds or use mortgage credit certificates from the housing pool. No city in an entitlement county may apply for or be allocated authority to issue residential rental bonds from the housing pool or the unified pool.

(h) A city that does not use at least 50 percent of its allotment by the date applications are due for the first allocation that is made from the housing pool for single-family housing programs in the immediately succeeding calendar year may not apply to the housing pool for a single-family mortgage bond or mortgage credit certificate program allocation that exceeds the amount of its allotment for the preceding year that was used by the city in the immediately preceding year or receive an allotment from the housing pool in the succeeding calendar year that exceeds the amount of its allotment for the preceding year that was used in the preceding year. The minimum allotment is \$100,000 for an allocation made prior to June 15, regardless of the amount used in the preceding calendar year, except that a city whose allocation in the preceding year was the minimum amount of \$100,000 and who did not use at least 50 percent of its allocation from the preceding year is ineligible for an allocation in the immediate succeeding calendar year. Each local government unit in a consortium must meet the requirements of this paragraph.

EFFECTIVE DATE. This section is effective January 1, 2021.

Sec. 17. Minnesota Statutes 2019 Supplement, section 474A.091, subdivision 3, is amended to read:

Subd. 3. **Allocation procedure.** (a) The commissioner shall allocate available bonding authority under this section on the Monday of every other week beginning with the first Monday in July through and on the last Monday in November. Applications for allocations must be received by the department by 4:30 p.m. on the Monday preceding the Monday on which allocations are to be made. If a Monday falls on a holiday, the allocation will be made or the applications must be received by the next business day after the holiday.

(b) Prior to October 1, only the following applications shall be awarded allocations from the unified pool. Allocations shall be awarded in the following order of priority:

- (1) applications for residential rental project bonds;
- (2) applications for small issue bonds for manufacturing projects; and
- (3) applications for small issue bonds for agricultural development bond loan projects.

(c) On the first Monday in October through the last Monday in November, allocations shall be awarded from the unified pool in the following order of priority:

- (1) applications for student loan bonds issued by or on behalf of the Minnesota Office of Higher Education;
- (2) applications for mortgage bonds;

- (3) applications for public facility projects funded by public facility bonds;
- (4) applications for small issue bonds for manufacturing projects;
- (5) applications for small issue bonds for agricultural development bond loan projects;
- (6) applications for residential rental project bonds;
- (7) applications for enterprise zone facility bonds;
- (8) applications for governmental bonds; and
- (9) applications for redevelopment bonds.

(d) If there are two or more applications for manufacturing projects from the unified pool and there is insufficient bonding authority to provide allocations for all manufacturing projects in any one allocation period, the available bonding authority shall be awarded based on the number of points awarded a project under section 474A.045 with those projects receiving the greatest number of points receiving allocation first. If two or more applications for manufacturing projects receive an equal amount of points, available bonding authority shall be awarded by lot unless otherwise agreed to by the respective issuers.

(e) If there are two or more applications for enterprise zone facility projects from the unified pool and there is insufficient bonding authority to provide allocations for all enterprise zone facility projects in any one allocation period, the available bonding authority shall be awarded based on the number of points awarded a project under section 474A.045 with those projects receiving the greatest number of points receiving allocation first. If two or more applications for enterprise zone facility projects receive an equal amount of points, available bonding authority shall be awarded by lot unless otherwise agreed to by the respective issuers.

(f) If there are two or more applications for residential rental projects from the unified pool and there is insufficient bonding authority to provide allocations for all residential rental projects in any one allocation period, the available bonding authority shall be awarded in the following order of priority: (1) preservation projects; (2) 30 percent AMI residential rental projects; (3) 50 percent AMI residential rental projects for which the amount of bonds requested in their respective applications do not exceed the aggregate bond limitations; (4) 100 percent LIHTC projects; (5) 20 percent LIHTC projects; and (6) other residential rental projects. If there are two or more applications for residential rental projects at the same priority level and there is insufficient bonding authority to provide allocations for all the projects in any one allocation period, available bonding authority shall be ~~randomly~~ awarded by ~~lot~~ giving preference for projects with a lower cost-per-unit of housing but only for projects that can receive the full amount of their respective requested allocations. If a residential rental project does not receive any of its requested allocation pursuant to this paragraph and the project applies in the next successive housing pool or the next successive unified pool for an allocation of bonds, the project shall be fully funded up to its original application request for bonding authority before any new project, applying in the same allocation period, that has an equal priority shall receive bonding authority.

(g) From the first Monday in July through the last Monday in November, \$20,000,000 of bonding authority or an amount equal to the total annual amount of bonding authority allocated to the small

issue pool under section 474A.03, subdivision 1, less the amount allocated to issuers from the small issue pool for that year, whichever is less, is reserved within the unified pool for small issue bonds to the extent the amounts are available within the unified pool.

(h) The total amount of allocations for mortgage bonds from the housing pool and the unified pool may not exceed:

(1) \$10,000,000 for any one city; or

(2) \$20,000,000 for any number of cities in any one county.

(i) The total amount of allocations for student loan bonds from the unified pool may not exceed \$25,000,000 per year.

(j) If there is insufficient bonding authority to fund all projects within any qualified bond category other than enterprise zone facility projects, manufacturing projects, and residential rental projects, allocations shall be awarded by lot unless otherwise agreed to by the respective issuers.

(k) If an application is rejected, the commissioner must notify the applicant and return the application deposit to the applicant within 30 days unless the applicant requests in writing that the application be resubmitted.

(l) The granting of an allocation of bonding authority under this section must be evidenced by issuance of a certificate of allocation.

EFFECTIVE DATE. This section is effective January 1, 2021.

Sec. 18. **HOUSING BOND ISSUE EXTENSION.**

Notwithstanding the requirement in Minnesota Statutes, section 474A.061, subdivision 2a, that an issuer must issue obligations equal to all or a portion of an allocation received from the housing pool on or before 180 days of the allocation, for allocations made between January 1, 2020 and the last Monday in June 2020, an issuer will have until December 1, 2020 to issue obligations equal to all or a portion of the allocation.

EFFECTIVE DATE. This section is effective the day following final enactment.

Sec. 20. **APPROPRIATION; 2020 EMERGENCY HOUSING ASSISTANCE GRANTS.**

(a) \$100,000,000 in fiscal year 2020 is appropriated from the coronavirus relief federal fund to the commissioner of the Minnesota Housing Finance Agency for transfer to the housing development fund for the family homeless prevention and assistance program under Minnesota Statutes, section

462A.204. The agency may use grantees of the family homeless prevention and assistance program under Minnesota Statutes, section 462A.204, and the grantees are preapproved to distribute money under this section. Notwithstanding the requirements of Minnesota Statutes, sections 16C.06 and 462A.204, the commissioner of the Minnesota Housing Finance Agency shall allocate these resources to existing grantees and contract with other entities that are not current grantees based on homelessness prevention needs. Entities may include counties, cities, nonprofit organizations, tribes, or other entities identified by the agency. For purposes of this emergency appropriation, nonprofits do not need to obtain sponsoring resolutions from counties as required under Minnesota Statutes, section 462A.204, subdivision 3. This appropriation is onetime and available until December 1, 2020, or 30 days before the time limit for expending money under the Coronavirus Aid, Relief, and Economic Security (CARES) Act, Public Law 116-136, title V, if extended in federal law. The commissioner may contract with county agencies, local governments, tribes, or nonprofit organizations to provide funding and support services to process applications for funding under this program. To be eligible for funding, applicants must:

(2) have a rent payment, mortgage payment, homeowner association dues, lot rent due to a manufactured home park, contract for deed payment, homeowner insurance payment, property tax payment, or utility payment with a due date of March 1, 2020, or later, that is past due;

(3) be unable to pay the money owed because of the public health emergency; and

(4) be a household, with a current gross income under 300 percent of the federal poverty guidelines at the time of application or as averaged over the previous 12 months, whichever is lower.

(c) If an applicant applies for relief from sources other than the 2020 emergency housing assistance grants and receives aid for the purposes of paying for housing, the applicant must immediately notify the granting agency. Applicants may receive funding for rent, a mortgage payment, homeowner association dues, rent due for a manufactured home, contract for deed payment owed to a seller, homeowner insurance or property tax payment owed for a home, or utility payment owed with a due date of March 1, 2020, or later, that is due within 14 days of the application or that is up to 45 days past due at the time of application. Entities receiving grants under this section must provide written notification of legal duties that are taken on by aid recipients, including but not limited to informing the granting agency if a recipient receives aid for the purposes of paying for housing.

(d) Once an application is approved, the assistance file may remain open to allow for consideration of additional future assistance needs under this funding program resulting from the public health emergency. The financial assistance provided for any individual or family must not exceed the minimum rent due, contract for deed payment, or mortgage payment owed, plus the

homeowner association dues and utility payments owed, for a period of 90 days, except those at risk of experiencing homelessness.

(e) Funding under this section must be paid directly to:

(1) the landlord or leasing agent for a rental unit;

(2) the financial service for a mortgage or the entity who owns the mortgage for a homeowner;

(f) The commissioner may develop applications for the program and a process to oversee grantees.

(g) Data submitted from benefits by an applicant to establish eligibility under this section is subject to Minnesota Statutes, section 13.462.

(h) By February 8, 2021, the Minnesota Housing Finance Agency must submit a report to the chairs and ranking minority members of the legislative committees with jurisdiction over housing finance with a summary of the performance of this program. The report must contain the following information:

(1) the total number of grants awarded to grantees and the number of households assisted under this program;

(2) the total amount of grant funding awarded to grantees and households assisted under this program;

(3) the mean and median grant amounts awarded to grantees and households assisted under this program;

(4) a summary of the geographic distribution of grants awarded under this program, including a list of the number of households awarded grants by county and the total dollar amount in assistance provided to all households by county; and

(5) a list of all entities contracted with to process applications under this program.

(i) For the purposes of this section, "public-health-related emergency" means:

(1) an illness, either of an individual or an individual's relative or household member, related to COVID-19 that prevents the individual from maintaining employment temporarily or permanently and the individual's income is reduced by 15 percent or more; or

(2) a reduction in income by 15 percent or more, or temporary or permanent unemployment as a result of COVID-19, or due to the peacetime emergency declared by the governor on March 13, 2020, in Executive Order 20-01 in response to COVID-19 or any other peacetime emergency declared by the governor by an executive order issued on or before September 30, 2020, that relates to COVID-19.

(j) The commissioner of management and budget, in consultation with the commissioner of housing finance, must determine whether any of the expenditures an appropriation is made for under this act is an eligible use of federal funding received under the Coronavirus Aid, Relief, and Economic Security (CARES) Act, Public Law 116-136, title V. If the commissioner of management and budget determines an expenditure is eligible for funding under title V of the CARES Act, the amount for the eligible expenditure is appropriated from the fund or account where CARES Act money has been deposited.

(k) No money in this section may be spent until the commissioner of management and budget determines that the appropriation in this section is an eligible use of the coronavirus relief federal fund.

EFFECTIVE DATE. This section is effective the day following final enactment."
