## REPORTS OF COMMITTEES

**Senator Kiffmeyer from the Committee on State Government Finance and Policy and Elections, to which was referred**

**S.F. No. 1715:** A bill for an act relating to redistricting; establishing redistricting principles for legislative and congressional districts; proposing coding for new law in Minnesota Statutes, chapter 2.

Reports the same back with the recommendation that the bill be amended as follows:

Delete everything after the enacting clause and insert:

"Section 1. **[2.022] LEGISLATIVE REDISTRICTING PRINCIPLES.**

Subdivision 1. **Nesting.** A state house district must not be divided in the formation of a state senate district.

Subd. 2. **Numbering.** The legislative districts must be numbered in a regular series, beginning with House District 1A in the northwest corner of the state and proceeding across the state from west to east, north to south, but bypassing the 11-county metropolitan area, as defined in section 200.02, subdivision 24, until the southeast corner has been reached; then to the 11-county metropolitan area outside the cities of Minneapolis and Saint Paul; then to Minneapolis and Saint Paul.

Subd. 3. **Population.** Redistricting plans for state legislatures must faithfully adhere to the concept of population-based representation. The population of a legislative district must not deviate by more than two percent from the population of the ideal district.

Subd. 4. **Minority representation.** Legislative districts must not be drawn with either the purpose or effect of denying or abridging the voting rights of any United States citizen on account of race, ethnicity, or membership in a language minority group and must otherwise comply with the Fourteenth and Fifteenth Amendments to the United States Constitution and the Voting Rights Act of 1965, as amended.

Subd. 5. **Convenient, contiguous, and compact districts.** Legislative districts must consist of convenient, contiguous territory structured into compact units. Contiguity by water is sufficient if the body of water does not pose a serious obstacle to travel within the district. Legislative districts with areas that connect only at a single point must not be considered contiguous.

Subd. 6. **Preservation of political subdivisions.** Political subdivisions must not be divided more than necessary to meet constitutional requirements.

Subd. 7. **Communities of interest.** Where possible in compliance with the preceding principles, communities of interest must be preserved. For purposes of this principle, "communities of interest" include, but are not limited to, groups of Minnesota citizens with clearly recognizable similarities of social, geographic, political, cultural, ethnic, economic, or other interests.

Subd. 8. **Incumbents.** Legislative districts must not be drawn for the purpose of protecting or defeating an incumbent, but the impact of redistricting on incumbent officeholders is a factor

subordinate to all redistricting criteria that the legislature may consider to determine whether proposed plans result in either undue incumbent protection or excessive incumbent conflicts.

Sec. 2. **[2.732] CONGRESSIONAL REDISTRICTING PRINCIPLES.**

Subdivision 1. **Applicability; constitutional duty of legislature.** The principles in this section apply to congressional districts.

Subd. 2. **Numbering.** The district numbers must begin with Congressional District 1 in the southeast corner of the state and end with Congressional District 8 in the northeast corner of the state.

Subd. 3. **Population.** The congressional districts must be as nearly equal in population as is practicable.

Subd. 4. **Minority representation.** Congressional districts must not be drawn with either the purpose or effect of denying or abridging the voting rights of any United States citizen on account of race, ethnicity, or membership in a language minority group and must otherwise comply with the Fourteenth and Fifteenth Amendments to the United States Constitution and the Voting Rights Act of 1965, as amended.

Subd. 5. **Convenient, contiguous, and compact districts.** Districts must consist of convenient, contiguous territory structured into compact units. Contiguity by water is sufficient if the body of water does not pose a serious obstacle to travel within the district. Congressional districts with areas that connect only at a single point must not be considered contiguous.

Subd. 6. **Preservation of political subdivisions.** Political subdivisions must not be divided more than necessary to meet constitutional requirements.

Subd. 7. **Communities of interest.** Where possible in compliance with the preceding principles, communities of interest must be preserved. For purposes of this principle, "communities of interest" include, but are not limited to, groups of Minnesota citizens with clearly recognizable similarities of social, geographic, political, cultural, ethnic, economic, or other interests.

Subd. 8. **Incumbents.** Congressional districts must not be drawn for the purpose of protecting or defeating incumbents, but the impact of redistricting on incumbent officeholders is a factor subordinate to all redistricting criteria that the legislature may consider to determine whether proposed plans result in either undue incumbent protection or excessive incumbent conflicts.

Sec. 3. **[2.95] REDISTRICTING PLANS; DATA.**

(a) The geographic areas and population counts used in maps, tables, and legal descriptions of the districts must be those used by the Geographic Information Systems (GIS) Office of the Legislative Coordinating Commission. The population counts must be the block population counts provided to the state under Public Law 94-171 after each decennial census, subject to correction of any errors acknowledged by the United States Census Bureau.

(b) A redistricting plan must not be considered for adoption by the senate or house of representatives until the redistricting plan's block equivalency file has been submitted to the GIS

Office in a form prescribed by the GIS Office. The block equivalency file must show the district to which each census block has been assigned.

Sec. 4. **EFFECTIVE DATE.**

This act is effective the day following final enactment and applies to any plan for districts enacted or established on or after that date."

Amend the title numbers accordingly

And when so amended the bill do pass and be re-referred to the Committee on Redistricting.

Pursuant to Joint Rule 2.03, the bill was referred to the Committee on Rules and Administration.

**Senator Kiffmeyer from the Committee on State Government Finance and Policy and Elections, to which was referred**

**S.F. No. 2409:** A bill for an act relating to elections; modifying technical redistricting publishing and reporting requirements; amending Minnesota Statutes 2020, section 2.91, subdivision 1.

Reports the same back with the recommendation that the bill do pass.

**Senator Kiffmeyer from the Committee on State Government Finance and Policy and Elections, to which was referred**

**S.F. No. 2308:** A bill for an act relating to redistricting; establishing redistricting principles; providing measures for evaluating redistricting plans.

Reports the same back with the recommendation that the bill be amended as follows:

Delete everything after the enacting clause and insert:

"Section 1. **REDISTRICTING; STATEMENT OF PURPOSE.**

Minnesota legislative and congressional districts should be created using a fair and open process that limits the ability of legislators to draw districts that favor themselves or their party. Legislative and congressional districts should be as free from political bias as possible. Ideally, legislative and congressional districts should be drawn by a nonpartisan redistricting commission. However, because no such commission exists in Minnesota, the principles set forth in section 2 must be used to draw legislative and congressional districts.

Sec. 2. **DISTRICTING PRINCIPLES.**

Subdivision 1. **Applicability.** The principles in this section apply to legislative and congressional districts.

Subd. 2. **Numbering.** (a) The congressional district numbers shall begin with Congressional District 1 in the southeast corner of the state and end with Congressional District 8 in the northeast corner of the state.

(b) The legislative districts shall be numbered in a regular series, beginning with House District 1A in the northwest corner of the state and proceeding across the state from west to east, north to south, but bypassing the 11-county metropolitan area until the southeast corner has been reached; then to the 11-county metropolitan area, as defined in Minnesota Statutes, section 200.02, subdivision 24, outside the cities of Minneapolis and Saint Paul; then to Minneapolis and Saint Paul.

Subd. 3. **Nesting.** A state house district must not be divided in the formation of a senate district.

Subd. 4. **Political parties.** A district or plan must not be drawn with the intent to favor or disfavor a political party or candidate. Incumbent addresses must not be considered when drawing districts. The incumbent report required by section 4 must not be used in any manner during the process of drawing a district or plan.

Subd. 5. **Population equality.** (a) The congressional districts must be as nearly equal in population as is practicable.

(b) Legislative districts must be substantially equal in population. The population of a legislative district must not deviate from the ideal by more than one percent, plus or minus.

Subd. 6. **Convenient; contiguity.** Districts must be composed of convenient, contiguous territory. Contiguity by water is sufficient if the water does not pose a serious obstacle to travel within the district. Districts with areas that touch only at a point are not contiguous.

Subd. 7. **American Indian reservations.** A federally recognized American Indian reservation must not be divided into more than one district except as necessary to meet constitutional requirements. When a federally recognized American Indian reservation must be divided into more than one district, it must be divided into as few districts as possible.

Subd. 8. **Preserving political subdivisions.** To the extent possible, counties, cities, and townships must not be divided. When a county, city, or township must be divided into more than one district, it must be divided into as few districts as possible.

Subd. 9. **Black, Indigenous, and People of Color.** Districts must not be drawn with the purpose or effect of dispersing or concentrating Black people, Indigenous people, People of Color, or members of a language minority group and must comply with the Fourteenth and Fifteenth Amendments to the United States Constitution and the Voting Rights Act of 1965, as amended.

Subd. 10. **Communities of interest.** Districts must attempt to preserve identifiable communities of interest. A community of interest may include an ethnic or language group or any group with shared experiences and concerns, including but not limited to geographic, governmental, regional, social, cultural, historic, socioeconomic, occupational, trade, or transportation interests. Communities of interest do not include relationships with political parties, incumbents, or political candidates.

Subd. 11. **Compactness.** Districts must be structured into compact units.

Subd. 12. **Cores of prior districts.** Districts must attempt to preserve the cores of prior districts to the extent possible.

Subd. 13. **Priority of principles.** Where it is not possible to fully comply with the principles contained in subdivisions 2 to 12, a redistricting plan must give priority to those principles in the order in which they are listed in this section, except to the extent that doing so would violate federal or state law.

### Sec. 3. **EVALUATING MAPS.**

A redistricting plan must not be considered for adoption by the house of representatives or senate until the house of representatives or senate committee with jurisdiction over redistricting evaluates the plan based on the following measures:

(1) how well the plans preserved communities of interest, including those communities of interest identified at public hearings regardless of whether those communities are recognized on the map;

(2) the overall compactness measures of the districts and whether the total compactness scores are consistent across districts;

(3) whether the statewide proportion of districts whose voters favor each political party corresponds closely to the statewide preferences of the voters of Minnesota, based on statewide state and federal partisan general election results during the last ten years;

(4) whether incumbent competition disproportionately burdens either major political party or incumbents that are Black, Indigenous, Persons of Color, or female; and

(5) how well the plans comply with the principles established in section 2.

### Sec. 4. **REDISTRICTING; DATABASE; REPORTS.**

Subdivision 1. **Database.** (a) The geographic areas and population counts used in maps, tables, and legal descriptions of legislative and congressional districts considered by the legislature must be those used by the Geographic Information Services (GIS) Office of the Legislative Coordinating Commission. The population counts shall be the block population counts provided to the state under Public Law 94-171 after each decennial census, subject to correction of any errors acknowledged by the United States Census Bureau.

(b) Nothing in this subdivision prohibits the use of additional data, as determined by the legislature.

(c) The database that stores the information described in paragraph (a) must be made available on the GIS Office website.

Subd. 2. **Publication; consideration of plans.** A redistricting plan must not be considered for adoption by the senate or house of representatives until the redistricting plan's block equivalency file has been submitted to the GIS Office in a form prescribed by the GIS Office. The block equivalency file must show the district to which each census block has been assigned. The GIS Office shall publish each plan submitted to it on the GIS Office website.

Subd. 3. **Reports.** Publication of a plan must include the following reports described as follows:

(1) A population equality report, listing each district in the plan, its population as the total number of persons, and deviations from the ideal as both a number of persons and as a percentage of the population. The report must also show the populations of the largest and smallest districts and the overall range of deviations of the districts.

(2) A Black, Indigenous, and People of Color voting age population report, listing for each district the voting age population of each group and the total voting age population for each group, according to the categories recommended by the U.S. Department of Justice. The report must also highlight each district with 30 percent or more total voting age populations of Black, Indigenous, or People of Color.

(3) A contiguity report, listing for each district the number of distinct polygons within it. The report must also show the number of districts with more than one polygon.

(4) A measures of compactness report, listing for each district the results of at least the Reock, Polsby-Popper, Minimum Convex Hull, Population Polygon, Population Circle, Ehrenburg, Perimeter, Length-Width, and Schwartzberg measures of compactness. The report must also state for all the districts in a plan the sum of its perimeters and the mean of its other measurements.

(5) A political subdivision splits report, listing any split counties, cities, towns, unorganized territories, and precincts, and the district to which each portion of a split subdivision is assigned. The report must also show the number of subdivisions split and the number of times a subdivision is split.

(6) A federally recognized American Indian reservation split report, listing any split American Indian reservations and the district to which each portion of a split American Indian reservation is assigned. The report must also show the number of American Indian reservations split and the number of times an American Indian reservation is split.

(7) A communities of interest report, listing any district or districts to which a community of interest has been assigned. If the chief author of a plan asserts that it preserves a community of interest, maps of the plan must include a layer identifying the census blocks within the community of interest. The report must also show the number of communities of interest that are split and the number of times a community of interest is split.

(8) A cores of prior districts report, listing for each district the total population, voting age population, percentage of the population taken from the territory of a prior district, and the number of persons that were moved into the district and thus not part of its core. The report must also show the number of districts changed from a prior district, the number of persons moved from one district to another, and the average percentage core of a prior district's voting age population for all districts in the plan.

(9) An incumbents by district report, listing for each district any incumbents residing in it, their political party, and the number of the prior district in which they resided. The report must also show the number of incumbents paired, whether they have been paired with an incumbent of their own party or of another party, and the number of open seats. This report must be used only for evaluating

a map as provided in section 2. This report and any data included in the report must not be used during the process of drawing a map.

(10) A plan components report, listing for each district the names and populations of the counties within it and, where a county is split between or among districts, the names and populations of the portion of the split county and each of the split county's whole or partial cities, townships, unorganized territories, and precincts within each district.

Sec. 5. EFFECTIVE DATE.

This act is effective the day following final enactment and applies to plans drawn on or after that date but before the 2030 P.L. 94-171 data is released to the state."

And when so amended the bill be re-referred to the Committee on Redistricting without recommendation.

(e) For a defined benefit relief association in which the governing bylaws provide for a monthly benefit service pension as an alternative form of service pension payment to a lump-sum service

pension, the maximum service pension amount for each pension payment type must be determined using the applicable table contained in this subdivision.

(f) If a defined benefit relief association establishes a service pension in compliance with the applicable maximum contained in paragraph (c) or (d) and the minimum average amount of available financing per active covered firefighter is subsequently reduced because of a reduction in fire state aid or because of an increase in the number of active firefighters, the relief association may continue to provide the prior service pension amount specified in its bylaws, but may not increase the service pension amount until the minimum average amount of available financing per firefighter under the table in paragraph (c) or (d), whichever applies, permits.

(g) No defined benefit relief association is authorized to provide a service pension in an amount greater than the largest applicable flexible service pension maximum amount even if the amount of available financing per firefighter is greater than the financing amount associated with the largest applicable flexible service pension maximum.

(h) The method of calculating service pensions must be applied uniformly for all years of active service. Credit must be given for all years of active service except, unless the bylaws of the relief association provide that service credit is not given for:

(1) years of active service in excess of caps on service credit if so provided in the bylaws of the relief association; or

(2) years of active service earned by a former member who:

(i) has ceased duties as a volunteer firefighter with the fire department before becoming vested under subdivision 2; and

(ii) has not resumed active service with the fire department and active membership in the relief association for a period as defined in the relief association's bylaws, of not less than five years.

**EFFECTIVE DATE.** This section is effective January 1, 2022.

Sec. 8. Minnesota Statutes 2020, section 424A.05, subdivision 3b, is amended to read:

Subd. 3b. **Authorized administrative expenses from special fund.** (a) Notwithstanding any provision of law to the contrary, the payment of the following necessary, reasonable, and direct expenses of maintaining, protecting, and administering the special fund, when provided for in the bylaws of the association and approved by the board of trustees, constitutes authorized administrative expenses of a volunteer firefighters relief association organized under any law of the state or the Bloomington Fire Department Relief Association:

(1) office expenses, including but not limited to rent, utilities, equipment, supplies, postage, periodical subscriptions, furniture, fixtures, and salaries of administrative personnel;

(2) salaries of the officers of the association or their designees, and salaries of the members of the board of trustees of the association if the salary amounts are approved by the governing body of the entity that is responsible for meeting any minimum obligation under section 424A.092 or 424A.093 or Laws 2013, chapter 111, article 5, sections 31 to 42, and the itemized expenses of relief

association officers and board members that are incurred as a result of fulfilling their responsibilities as administrators of the special fund;

(3) tuition, registration fees, organizational dues, and other authorized expenses of the officers or members of the board of trustees incurred in attending educational conferences, seminars, or classes relating to the administration of the relief association;

(4) audit and audit-related services, accounting and accounting-related services, and actuarial, medical, legal, and investment and performance evaluation expenses;

(5) filing and application fees necessary to administer the special fund payable by the relief association to federal or other government entities;

(6) reimbursement to the officers and members of the board of trustees or their designees, for reasonable and necessary expenses actually paid and incurred in the performance of their duties as officers or members of the board; and

(7) premiums on fiduciary liability insurance and official bonds for the officers, members of the board of trustees, and employees of the relief association.

(b) All other expenses of the relief association must be paid from the general fund of the association if one exists. If a relief association has only one fund, that fund is the special fund for purposes of this subdivision. If a relief association has a special fund and a general fund, the payment of any expense of the relief association that is directly related to the purposes for which both funds were established must be apportioned between the two funds on the basis of the benefits derived by each fund.

(The text of the amended House File is identical to S.F. No. 227.)

Delete everything after the enacting clause and insert:

"Section 1. Minnesota Statutes 2020, section 216B.241, subdivision 1c, is amended to read:

Subd. 1c. **Energy-saving goals.** (a) The commissioner shall establish energy-saving goals for energy conservation improvement expenditures and shall evaluate an energy conservation improvement program on how well it meets the goals set.

(b) Each individual utility and association shall have an annual energy-savings goal equivalent to 1.5 percent of gross annual retail energy sales unless modified by the commissioner under paragraph (d). The savings goals must be calculated based on the most recent three-year weather-normalized average. A utility or association may elect to carry forward energy savings in excess of 1.5 percent for a year to the succeeding three calendar years, except that savings from electric utility infrastructure projects allowed under paragraph (d) may be carried forward for five years. A particular energy savings can be used only for one year's goal.

(c) The commissioner must adopt a filing schedule that is designed to have all utilities and associations operating under an energy-savings plan by calendar year 2010.

(d) In its energy conservation improvement plan filing, a utility or association may request the commissioner to adjust its annual energy-savings percentage goal based on its historical conservation investment experience, customer class makeup, load growth, a conservation potential study, or other factors the commissioner determines warrants utility or association asserts warrant an adjustment. The commissioner ~~may not approve:~~

(1) must approve a request by a municipal utility or cooperative electric association to adjust the utility's or association's annual energy-savings goal, unless it can be demonstrated that the request is made in bad faith and that the requester has made no credible attempt to meet the existing goal;

(2) may approve a request from a public utility to adjust its annual energy-savings goal; and

(3) is prohibited from approving a plan of a public utility that provides for an annual energy-savings goal of less than one percent of gross annual retail energy sales from energy conservation improvements.

A ~~public utility or association~~ may include in its energy conservation plan energy savings from electric utility infrastructure projects approved by the commission under section 216B.1636 or waste heat recovery converted into electricity projects ~~that~~, each of which may count as energy savings only in addition to a minimum energy-savings goal of at least one percent for energy conservation improvements. Energy savings from electric utility infrastructure projects, as defined in section 216B.1636, may be included in the energy conservation plan of a municipal utility or cooperative electric association. Electric utility infrastructure projects must result in increased energy efficiency greater than that which would have occurred through normal maintenance activity.

(e) An energy-savings goal is not satisfied by attaining the revenue expenditure requirements of subdivisions 1a and 1b, but can only be satisfied by meeting the energy-savings goal established in this subdivision.

(f) An association or utility is not required to make energy conservation investments to attain the energy-savings goals of this subdivision that are not cost-effective even if the investment is necessary to attain the energy-savings goals. For the purpose of this paragraph, in determining cost-effectiveness, the commissioner shall consider the costs and benefits to ratepayers, the utility, participants, and society. In addition, the commissioner shall consider the rate at which an association or municipal utility is increasing its energy savings and its expenditures on energy conservation.

(g) On an annual basis, the commissioner shall produce and make publicly available a report on the annual energy savings and estimated carbon dioxide reductions achieved by the energy conservation improvement programs for the two most recent years for which data is available. The commissioner shall report on program performance both in the aggregate and for each entity filing an energy conservation improvement plan for approval or review by the commissioner.

(h) By January 15, 2010, the commissioner shall report to the legislature whether the spending requirements under subdivisions 1a and 1b are necessary to achieve the energy-savings goals established in this subdivision.

(i) This subdivision does not apply to:

(1) a cooperative electric association with fewer than 5,000 members;

(2) a municipal utility with fewer than 1,000 retail electric customers; or

(3) a municipal utility with less than 1,000,000,000 cubic feet in annual throughput sales to retail natural gas customers.

**EFFECTIVE DATE.** This section is effective the day following final enactment."
