To whom it may concern,

I am writing to express my strong interest in serving as a representative of County Government on the Clean Water Council. With a profound commitment to environmental stewardship and a solid background in public service, I am eager to contribute my skills and dedication to advancing the crucial mission of the Clean Water Council.

Over the course of my career in public service, I have focused on issues of affordable housing, community well-being, and the intricate challenges facing our local environment in an age of change and adaptation. My experience on the Ramsey County Board of Commissioners has equipped me with a comprehensive understanding of the interplay between governmental policies, community needs, and environmental sustainability. I have been proud to work with other organizations touching water issues in my district, including local watershed districts, soil and water conservation officials, state entities, and community organizations.

I am particularly drawn to the Clean Water Council's dedication to promoting and implementing strategies that ensure the protection and enhancement of our water resources. Ramsey County sits at the confluence of the Minnesota and Mississippi Rivers, which means that everything that washes downriver from a large part of the state rolls through the heart of Ramsey County. These issues matter deeply to my constituents and our broader community.

In my work as chair of the Board, I have worked to foster a collaborative and inclusive approach to decision-making. I am adept at building partnerships between diverse stakeholders, including government agencies, community organizations, and private enterprises. I believe that effective water resource management requires a holistic and cooperative approach, and I am committed to working collaboratively with fellow council members.

I am excited about the opportunity to serve on the Clean Water Council and contribute to the vital work it undertakes. Thank you for considering my application.

Sincerely,
