President of the Senate

Hello & Good Day Governor Walz;

I am a 17-year-old student advocate for the Minnesota state system. I started getting involved with my college at age 16, where I joined the Student Senate and later went on to be elected the Student Senate President. I have seen the amazing opportunities and learning experiences the Minnesota system can provide students of all ages. I have talked to legislators at the State and Federal level about the changes I wish to see for college students, not just in Minnesota but for the entire U.S., that would help many with ongoing issues. When the possibility of being on the Minnesota State Board of Trustees was presented to me where I could positively make real change for students across Minnesota, I jumped at the opportunity. I am passionate about helping make Minnesota a place where students can continue to thrive and reach their educational goals.

I am a student within the PSEO program, where I am a full-time college student involved in multiple organizations that all have one thing in common: to help students succeed. My age might be seen as a weakness, but I see it as a strength. I have had to work over twice as hard as my high school peers to be the change I want to see. I see my age as proof that anyone can be anything they want to be with effort and determination. We need people who are willing to use their voices for the greater good, and I am that person.

I have not done this all on my own. I would not be applying for this position today without a fantastic support system at my college. It is the support system behind every leader that makes them great. I have achieved so much because of all the people supporting me. I am standing up to create positive change for everyone that doesn't have that support system so they can still succeed. I want to thank you for your consideration for this position. I am happy to answer any more questions you might have by phone or email.

Sincerely & with Gratitude,

Christopher Richter
