Dear Appointing Authority,

I am humbly requesting your consideration to fill the open Journeyworker position on the State Board of Electricity.

I feel it would be a great honor to serve on the State Board of Electricity, so this application is not something that I take lightly. I have had a bit of a diverse career path that I feel would bring value to the Board. My current position is Assistant Training Director for the Minneapolis Electrical JATC. Our main goal at the JATC is to provide apprentices with the education needed to become successful electricians, and to provide continuing education to our Journeyworkers. Keeping them up to date on current codes required for a safe electrical installation. Prior to becoming the Assistant Director, I had the privilege of being an Apprenticeship Instructor for five years. Both my Director and Instructor experiences have helped me become proficient in understanding the National Electrical Code (NEC) and the Minnesota State Statutes that apply to electrical installations. Prior to my time with the Minneapolis Electrical JATC I spent ten years working as a construction electrician. I worked from apprentice level up to a foreman role. Through those years I was able to gain experience with many different project types: Residential, Commercial, Industrial, Farm, etc.

I am grateful to live in a state that has exceptionally high standards with regard to electrical installations. I am very passionate about keeping those standards high and furthering the development of electrically safe installations for both the citizen and the worker.

Some of the other areas I have the opportunity to serve the electrical industry include: University of Minnesota's Annual Institute of Building Officials (Electrical Committee), Dunwoody College Program Advisory Committee, Skills USA Minnesota (Judge), Underwriter's Laboratory (UL) Standards Technical Panel Member

Thank you for your time and consideration,

Trevor J. Turek
